DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This well-built two-story frame house features fine decorative trim across its several sections. The L-shaped house includes a five-bay by two-bay main block followed by a five-bay ell. Either section includes a cross-gable.

A hip-roofed porch covers the west-facing facade. A bay window occupies the two first story bays on the south gable end. The facade's central door is topped by a transom.

Two over two sash windows flanked by louvered shutters light the house. The first-floor windows are floor-length. A single arched two over two sash window lights each gable.

Jigsawn trim decorates the bargeboards and eaves. The porch eaves, supported by turned posts, exhibit similar trim as well as scrollwork brackets.

Two centrally located chimneys heat the house. Asphalt shingles cover the roof. Very narrow horizontal siding sheathes the walls. The house stands on a brick foundation.

A lattice work arbor and picket fence extend beyond the southeast corner of the ell to a small frame garage.
